**LOSS UP TO PRESENT IS \$80,000—
Buildings Owned by Norman Luxton**

HAMILTON, Feb. 7.—Fire broke out shortly after nine o'clock this morning in the King Edward hotel and spread to adjoining structures, threatening the whole business section of Banff. For over an hour the water hydrants were frozen up solidly and water was scarce. When the fire was extinguished, it was found that the hotel was practically demolished.

Other places of business destroyed included the Tax lex, the O. K. Garage, the Hotel Inn and the D. Anderson's tailoring establishment. Eleven o'clock the big store of the Canadian Tire Company caught fire, but the fire brigade quickly put out this structure. All the buildings destroyed were owned by Norman Luxton.

It is estimated that the damage done up to this time will amount to \$60,000. The fire still is burning.

**Potomac Flies to Rescue Crews of
Fishing Schooners off New Foundland**

Washington, D.C., Feb. 7.—Warships are putting out from the big navy bases at Arlington today to the frigid waters of the North Atlantic coast, searching for the tiny two-masted schooners lost in the ice after an uneventful return to rescue the crews of the sailors missing since the ship was lost in the ice.

The boat had been in the Bay of Islands for nearly a week. Potomac had been sent to rescue the crew after days of useless search, but she left the harbor last night and did not have put into port yesterday, when the news was not heard from the radio, but the wireless in action. It is thought she was merely delayed by the bad weather and the ice in the straits. The jam, however, probably would be the salvation of the crew of the unreported fishing schooners.

Officials here are not concerned for them. They say that if these ships are crushed in the pack they can easily make their way to shore over the ice.

**McNamara Withdraws His
Signature to Advice of Chalmers**

When Major McNamara, late yesterday afternoon, declared he wanted to sign the agreement with the street railway men's association there and then, the Commissioner Chalmers presented a vigorously worded ultimatum.

Members of the union headed by Busby Aspin, W. H. Clark, came before the commissioners with the copies of the agreements which Major McNamara had signed, and after it had been approved by Superintendent Woodroffe.

"I understand these men I would sign the agreement, and I guess might as well do it now," said Mr. McNamara.

"Oh, no," objected Commissioner Chalmers, pointing out that the agreement on the matter should be ascended before the mayor put his pen to the paper.

After some spirited discussion, Major McNamara finally postponed the affixing of his signature until some later date.

PRICE PAID FOR PRACTICING**

New York, Feb. 7.—It was announced here last night that the "small Copper Master," the Raphael, had been bought by P. A. B. Widener, of Philadelphia, at a price in excess of \$17,000. When the picture changed owners last in London, the purchase price was given as \$60,000.

The picture, which is 24 by 16 inches in dimension, and was painted about 1865 at Florence, when Raphael was 21 years old, was painted for his art. It is said to represent the most gracious and graceful of the great masters.

QUEBEC LEGISLATOR ACCUSED OF GRAFT IS SERIOUSLY ILL

Mousseau, Former Member For Soulanges, is Unable to Give Evidence

PROMABLY LONG TIME BEFORE RECOVERY

One Physician Says Case Had Serious Features Which Should Not Be Public

(From Special Edition)

By HAMILTON STANLEY.
QUEBEC, Feb. 6.—The "professional secret" was invoked today by the committee which had been sent to the home of Mr. Mousseau, former member of the Legislature, to report on his condition. While one of the four physicians had made a full report on the patient's condition, it was all were unanimous in their verdict that he was not yet well enough to be sent home, and that it would probably be a long time before he would be in a fit state to give evidence.

Dr. Leduc gave the most important evidence of the case. The patient had been disabled so long that the patient could not under any circumstances whatever appear before the committee and make his condition known to the examining physician at his own home.

Recovery Was Possible.

Asked whether the patient had been affected by the "professional secret," Mr. Mousseau's condition rest serious, the witness said that the case was not so bad as to require him to leave his home, but that on the other hand he was quite unable to examine himself indefinitely.

Dr. Leduc went on to say he was not aware how Canadian jurisdiction affected a special case like this, but, according to French Jurisprudence, no man should be sent to the committee unless he can be examined until he was thoroughly cured.

A Similar Case.

The doctor, however, said that he was not able to practice his private practice about a month ago and that the patient had recovered in ten days. This was the first time that Dr. Leduc had prognosticated much greater recovery.

Mr. Simard, who also testified, said that he did not think it his duty to describe the state in which he found Mr. Mousseau, but that he was in a condition that Mr. Mousseau was absolutely unfit to be questioned, he thought they should not be asked in public.

Allegations Against the Examination.

In connection with the examination of Sir Hugh Graham, this morning, the proceedings at the sitting of the assembly during the afternoon were investigated, while Mr. Jean Prevost, who was refused permission to summon Mr. Biddington before the investigating committee, had several very important documents still left to make out. He would not say what the set had gathered in some big bag as well as little ones.

At 12 o'clock, Mr. Lavergne to the effect that Mr. Landolt be brought before the bar of the Houses on Monday to account for his conduct. Mr. MacNeil, was defeated on a straight party vote.

The time of the sitting was taken up by Mr. La Croix's criticism of a Liberal organ of this city. There were also several documents presented, among them being Mr. Lavergne and Mr. Lucien Cannon, who remarked that he was the youngest member of the assembly. The motion by Mr. Prevost that he had proved it.

BUILDING TRADES COUNCIL MEETS

Deplores the Importation of Labor While Local Men Are Remaining Idle

The regular meeting of the Edmonton Building Trades Council was held yesterday at the Gem Theatre, Jasper Avenue, and on Wednesday morning. All business delegates reported many idle men, as high as 85 per cent. in some crafts were out of work while many capable citizens of Edmonton remained idle. The same was said to apply to the local trades. Mr. Knight, who recently built the Strathcona Hospital, and the market building, said he had been approached to be sent to the Trades and Labor Council asking that representation be made to the proper quarter covering this matter.

Attention was called to the fact that the new teacher, Mr. C. F. King, who was omitted from the list at the meeting of the school board. This was the third omission in the history of the school system. The new teacher, Mr. King, who recently built the McLeod building and the market building, said he had been approached to be sent to the Trades and Labor Council asking that representation be made to the proper quarter covering this matter.

THREE ELECTIONS ARE EXPECTED SOON IN GREAT BRITAIN

Will Afford Interesting Revelations of Public Opinion on Issues of the Day

LABORITES MAY MAKE THEMSELVES FEEL

Troubles Over South Africa: S. Union May Have Influence on the Result

(Evening Morning Edition)

By Bulletin Leased Wire
WINNIPEG, Feb. 6.—In the legislature today a vote of confidence in the Conservative government in the Canadian Parliament was given by the Liberal party, West Winnipeg. The bill contained all the usual sets of election promises made by the government, but it is expected that they will be forgotten when the house reassembles Monday night. Taylor, government member for the constituency, said that it would be impossible to detect local opinion by technicalities.

WIRELESS WAVES AS CAUSE OF DISASTERS

French Electrician Offers a Possible Explanation of Recent Great Fatalities

By Bulletin Leased Wire
TAMER, Feb. 6.—Discrepancy, an electrician, declares he has reason to believe that wireless waves have been responsible for several recent catastrophes. In particular, he says, at the Uranium mine Vulture, the Carron mine disaster, and the destruction of the French liner *Normandie*.

He says that experiments made by him in his laboratory in the Provence region of France, about 10 miles from midway between the Eiffel Tower and the Louvre wireless stations, show that two stations are sending simultaneously an inexplicable phenomena produced in the atmosphere, consisting of a series of short, intense, incandescent lines filled with inflammable gas, he says, explained by the disturbance, although they are not connected electrically.

He points out that the spot in the ocean where the *Vulture* could have been in exactly the zone of the intersection of wireless waves from the two stations, and that the explosion of the *Carron* took place between the Paris and Citten and the Liberte between the Paris and Bourget stations.

The contests would affect interesting relations of public opinion, as both the Conservatives and the Liberals before the public in London. The Liberal majority in the last election was 120, while the Conservative majority in the last election was 134, with a Socialist vote of 134.

If the election is held in April, the South African happening amounts to anything the government will have to do to meet the situation, even in Leith the labor vote can easily be considered trouble.

In view of the fact that three by-elections might be brought on for the purpose of testing opinion.

The Daily Chronicle (Liberal) confirms the appointment of Mr. Munro Ferguson to Australia, and suggests that Mr. H. H. Aspinwall, of the Atterton, and this view is now accepted generally, although no really official announcement as to the latter has been made.

The Daily Chronicle (Liberal) also says that it has been agreed that Mr. Gladstone actually resigned the Rand riots in July, when the commandos were beaten, but that the circumstances raised such a storm of protest, that the acceptance of his resignation was held up in the hope that the situation would improve with the result that the events of January completed the acceptance of the resolution.

WILL START NEW JAIL AT THE FORT SHORTLY

Accommodation for Prisoners in the Province at Present Time is Lacking

Mr. Charles Stewart, minister of public works, and acting premier of the province, told the Legislature last night that construction work on the new jail at the Fort Garry prison will be started as soon as the weather improves. Jail accommodation at the present time and optimism will be rushed so that the dormitory will be ready early in the fall. The buildings will be large enough to house one hundred prisoners.

Mr. Stewart said that the problem of taking care of prisoners was daily becoming a more serious one in the province. He said that at the Fort Garry prison there are many prisoners who are not in the best of health, and the lack of space and want of detention in the province are continually circumstantial. All efforts in the past have been directed on the transfer of the G.P.T., for depot purposes, and the province will now have to take care of the inmates thus placing another burden on the shoulders of provincial officials.

The new jail will be built on the mounted police barracks at Fort Saskatchewan and Edmonton is an consideration. The new jail will be built on the site of the former police station, which was destroyed in the fire at the fort.
